Professional Summary

Detail-oriented public health professional with a Bachelor of Science in Computer Science and over 12 years of direct experience in food service operations, including multi-million-dollar wine and beverage program oversight, staff training, and regulatory compliance. Proven ability to apply standards consistently across high-volume, diverse environments and to communicate effectively with owners, staff, and the public. Experienced in community education, technical documentation, and working with populations of all backgrounds. Eager to apply food industry expertise and a systems-oriented mindset to protect Denver's public health as a Food Safety Investigator.

Education

Bachelor of Science, Computer Science <i>University of Colorado Denver</i>	<i>Dean's List</i> 2019 – 2022
Associate of General Studies <i>Community College of Denver</i>	<i>Dean's List</i> 2017 – 2019

Relevant Experience

Sommelier & Wine Director / Hospitality Manager <i>Various Establishments</i>	<i>Multiple Locations</i> 2005 – 2017
---	--

- Oversaw food and beverage compliance across multiple high-volume establishments, ensuring adherence to health, safety, and licensing regulations in fast-paced environments.
- Managed multi-million-dollar wine inventories with rigorous attention to storage conditions, labeling, and product integrity — applying regulatory standards to day-to-day operations.
- Trained staff across all levels on food handling, sanitation practices, service standards, and regulatory requirements, fostering a culture of accountability and safety.
- Conducted ongoing assessments of kitchen and service operations, identifying and correcting compliance gaps before they escalated.
- Engaged directly with diverse clientele and team members on a daily basis, developing strong skills in clear communication, de-escalation, and stakeholder education.
- Supervised operations across multiple sites, providing structured feedback and maintaining consistent standards — analogous to independent investigator fieldwork.

Maker, Educator & Community Workshop Facilitator <i>Independent Projects</i>	<i>Denver, CO</i> 2017 – Present
--	-------------------------------------

- Designed and facilitated inclusive community workshops for participants of all ages, translating technical or regulatory concepts into accessible, actionable guidance.
- Developed and delivered structured educational materials — a direct parallel to the public education and business outreach component of food safety investigation.
- Maintained thorough documentation of projects, procedures, and outcomes; applied systematic troubleshooting to identify root causes of equipment or process failures.

Student Assistant — Creative Technologist & IT Support <i>Auraria Campus</i>	<i>Denver, CO</i> 2017 – 2019
--	----------------------------------

- Provided one-on-one and group instruction to diverse student populations, adapting communication style to individual learning needs.
- Maintained detailed records of helpdesk inquiries and resolutions; ensured resources and equipment met operational and safety standards.
- Coordinated access to and compliance with institutional procedures for shared technical resources.

Leadership & Community Involvement

NextGen Leader

Disability:IN

Ongoing

- Collaborated with professionals across industries to promote inclusive, accessible environments — reinforcing commitment to equitable public service.

Judge

Colorado FIRST Robotics Competition

Ongoing

- Assessed student projects against defined criteria and provided structured, constructive feedback — mirroring the evaluation and documentation demands of field inspection work.
